KRISHNAIZATION PROJECT

- Our rich experience with Lean projects in Indian industry shows that stores/warehouses can be the focal points of improvement for entire plant operations
- Our Krishnaization programme is designed to generate improvements in stores/warehouses, impacting positively overall plant performance

- Through our Total Handholding Concept (THHC) involving our Executives and Associates who work full time at your site
- For application of advanced Lean techniques in stores/warehouses we can provide our Consultants' support through our Lean Implementation services.
